PROFESSIONAL SUMMARY

Full-stack software engineer building production systems with Python, TypeScript, React, Django, FastAPI, and PostgreSQL. Independently delivers secure operations platforms from requirements through Railway deployment, including JWT/RBAC authorization, encrypted secrets, Stripe billing, audit trails, offline workflows, automated tests, and CI gates. Current flagship work demonstrates SaaS operations automation, governed database access, and jurisdiction-aware fleet compliance. Brings 25 years of precision-driven federal operations, military electronics, and QA experience to software that must remain dependable under real operating conditions.

TECHNICAL SKILLS

Languages: Python, JavaScript (ES6+), TypeScript, SQL, PowerShell, Bash

QA & Testing: Acceptance-criteria verification, Regression testing, Python unittest, Jest, Vitest, Testing Library, Playwright E2E, API/E2E testing, CI pipeline validation, Bug reporting, Test case design

Backend & APIs: Django, Django REST Framework, FastAPI, Flask, Node.js, Express.js, Celery, Django Channels, WebSockets, SQLAlchemy, Alembic, RESTful design, JWT & session auth, RBAC, OpenAPI/Swagger

Frontend & UI/UX: React 18/19, TypeScript, Vite, Framer Motion, Bootstrap 5, Tailwind CSS, Zustand, React Router, HTML5/CSS3, Responsive design, ARIA accessibility

Databases: PostgreSQL, SQLite, Redis, Django ORM, SQLAlchemy ORM, Alembic migrations, Schema design

Security: AES-256-GCM encryption, Encrypted secret vaults, CSRF protection, JWT/session auth, bcrypt, RBAC, Input validation, Parameterized SQL, SSL/HTTPS enforcement, SHA-256 integrity hashing

DevOps / CI-CD: Git, GitHub Actions, Docker, Docker Compose, Railway, Render, Fly.io, Gunicorn, Uvicorn, Terraform, Linux/Ubuntu CLI

Payments & AI: Stripe API, Stripe Checkout, Webhook handling, Subscription billing, LLM copilot integration, MCP server tooling

Project & Documentation: Agile/Scrum, Terms of Reference, Wireframing, Sprint planning (Trello), Technical runbooks, MVC/MVT architecture

SELECTED PRODUCTION SYSTEMS

AI Software Operations Studio

Django 5, DRF, React, TypeScript, PostgreSQL, Redis, Celery, Stripe, Railway

Unified software operations, encrypted secrets, deployment automation, quality workflows, and live SaaS billing

Custom-domain Railway deployment with PostgreSQL, Redis, workers, scheduled jobs, health supervision, and migrated project data.

Restricted live Stripe key, signed webhooks, Checkout, Customer Portal, and webhook-driven subscription state verified end to end.

DBOps Control Center

FastAPI, SQLAlchemy, Alembic, PostgreSQL, React, Vite, JWT, Stripe, Railway

Enterprise DB tooling, RBAC, audit trails, and billing

Live Stripe-backed plan limits and subscription billing; JWT + RBAC enforced on every route.

Multi-tenant RBAC, OIDC SSO, optional AI assist (OpenAI), and Railway deployment with PostgreSQL.

RigHand AI

React, Django, PostgreSQL, Capacitor, Stripe, Railway

Trucking expense, profit, compliance, and fleet ops for owner-operators

Offline-first IndexedDB sync, GPS/OBD mileage, and tax-ready CSV/PDF exports.

Free, Compliance Pro, and Fleet Lite tiers with live Stripe billing and payment-triggered unlock.

PROFESSIONAL EXPERIENCE

Full-Stack Software Developer (Independent / Contract)

Self-Directed Portfolio · Remote · Wimauma, FL · Sept 2025 – Present

Built and deployed production applications across SaaS operations, database governance, fintech, logistics, regulatory compliance, and AI tooling on a hardened foundation for auth, RBAC, billing, and CI/CD.

Full SDLC ownership as sole developer: terms of reference, user stories with acceptance criteria, wireframes, usability reports, implementation, and deployment.

Applied Python unittest and Jest/Vitest/Playwright suites to API endpoints, auth logic, UI components, and E2E flows; used GitHub Actions to gate lint, test, build, and deployment on each push to main.

Delivered e-commerce, database operations, market-entry intelligence, offline-first mobile, and AI-assisted systems for East African and EU use cases.

Quality Assurance Analyst

Triple Canopy (Federal Contractor) · Kuwait · 2018

QA on high-security threat-detection systems at 99.9% accuracy in mission-critical federal environments.

Diagnostics, calibration, validation protocols, and formal technical documentation per regulatory standards.

Law Enforcement Officer

U.S. Army Military Police · Waco PD · Dallas PD · Texas / Washington · 1998 – 2015

Investigative documentation and chain-of-custody under federal and state compliance.

TCOLE Master Police Officer (Texas); Washington State law-enforcement equivalency certificate.

Air Traffic Controller (FAA-Certified) · Electronics Maintenance

United States Army · U.S. / Overseas · 1987 – 1999

Zero-defect operational standards in FAA-certified air traffic control.

Electronics maintenance on communication, radar, and navigation systems; U.S. Army service documented on JST.

EDUCATION

Full Stack Software Development — Technical Diploma

San Diego Global Knowledge University · Tampa, FL · Diploma conferred May 2026

Coursework completed 2025–2026. Python · React · TypeScript · Node.js · PostgreSQL · GitHub Actions · Agile/Scrum

Information Technology — Technical Diploma

MyComputerCareer · 2024 – 2025

IT Security · CompTIA · Networking · Systems Administration

Associate of Arts — Business Administration

American InterContinental University · 2007 – 2008

Associate of Arts — Legal Assistant / Paralegal

Northwest Mississippi Community College · 1980 – 1982

CERTIFICATIONS

AI-900: Microsoft Azure AI Fundamentals · IT Security (CompTIA) · FAA Air Traffic Controller Certification · FAA Helicopter Communication Systems/Repair · TCOLE Master Police Officer · Immersive Full Stack Software Development (SDGKU)
